

Treasury Department,

Bureau of the Mint,

Washington, D. C., June 20, 1896

Superintendent, U. S. Mint,
Philadelphia, Pa.

Sir:

I have had the conference with the Supervising Architect's Office, and they inform me that they will send the specifications etc., for ventilating the Adjusting Room by Tuesday next, and that everything can be completed by the 15th proximo.

If you wish an additional safe for the Coiner's Office, it is very desirable that you should make immediate requisition for it as I find that there is only \$1,300. to the credit of the appropriation for Locks, Safes and Vaults, and the Supervising Architect if he can buy it this year will prefer to do so.

Respectfully yours,

Director of the Mint.

MINT of U. S.
PHILADELPHIA.
